Type: ROUTINE INSPECTION

ORONOGO, MO 64855

Date: Aug-16-2010

3.1

HOUSING FACILITIES, GENERAL.

Sec. 3.1 Housing facilities, general.

(b) Condition and site. Housing facilities and areas used for storing animal food or bedding must be free of any accumulation of trash, waste material, junk, weeds, and other discarded materials. Animal areas inside of housing facilities must be kept neat and free of clutter, including equipment, furniture, and stored material, but may contain materials actually used and necessary for cleaning the area, and fixtures or equipment necessary for proper husbandry practices and research needs

The owner has been storing kennel materials, building materials and miscellaneous materials on top of the enclosures in the north kennel building, on top of the enclosures, south side of the north building and inside the south east kennel building. This clutter needs to be removed from the kennel buildings to prevent it falling into the enclosures and drawing rodents into the kennels.

This affects 40 dogs

To be corrected by 26 August 2010

3.1

HOUSING FACILITIES, GENERAL.

Sec. 3.1 Housing facilities, general.

(c) Surfaces--(1) General requirements.

(i) Be free of excessive rust that prevents the required cleaning and sanitization, or that affects the structural strength of the surface

The metal surfaces both inside and outside the south west kennel building are rusted. These surfaces are pitted and weakened. The surfaces in their present condition cannot be properly cleaned and maintained. The owner needs to repair/replace the surfaces in a manner that allows them to be properly cleaned

This affects 10 dogs

To be corrected by 10 September 2010

Inspection Report

3.6

PRIMARY ENCLOSURES.

Sec. 3.6 Primary enclosures.

(b) Shelter from the elements. Outdoor facilities for dogs or cats must include one or more shelter structures that are accessible to each animal in each outdoor facility, and that are large enough to allow each animal in the shelter structure to sit, stand, and lie in a normal manner, and to turn about freely.

There is one doberman in the south grouping of 3 outdoor enclosures that the shelter is not large enough for the animal. This shelter does not allow the animal to sit, stand or turn about properly. The owner needs to provide a shelter that is large enough for the animal to assume normal postures in the shelter.

This affects 1 dog

To be corrected by 30 August 2010

3.6

REPEAT

PRIMARY ENCLOSURES.

Sec. 3.6 Primary enclosures.

(a) General requirements. (1) Primary enclosures must be designed and constructed of suitable materials so that they are structurally sound. The primary enclosures must be kept in good repair.

-The shelter of the first doberman pen (south) and the west doberman pen has areas that have been chewed - the entrance to the enclosures. The owner needs to repair/replace the chewed areas in a manner that provides a surface that can be properly cleaned. This is necessary for disease prevention in the facility

This affects 2 dogs

3.11

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Sec. 3.11 Cleaning, sanitization, housekeeping, and pest control.

(d) Pest control. An effective program for the control of insects, external parasites affecting dogs and cats, and birds and mammals that are pests, must be established and maintained so as to promote the health and well-being of the animals and reduce contamination by pests in animal areas.

There is rodent fecal matter in the south west kennel building. This fecal matter is around the outside and inside of the facility. The fecal matter is collected on the floor and washdowns of the facility. There was one rodent in its nest on top of the enclosure in the south east corner of this building. The owner needs to take a more aggressive approach in the rodent control in their facility. This aids in the prevention of diseases and sickness in the facility

This affects 40 dogs

To be corrected by 30 August 2010

2.126

ACCESS AND INSPECTION OF RECORDS AND PROPERTY.

Sec. 2.126 Access and inspection of records and property.

(b) The use of a room, table, or other facilities necessary for the proper examination of the records and inspection of the property or animals must be extended to APHIS officials by the dealer, exhibitor, intermediate handler or carrier, and a responsible adult shall be made available to accompany APHIS officials during the inspection process.

Repeated failure to make a responsible adult available to accompany APHIS officials during the inspection process.

A responsible adult was not available to allow access and accompany inspection at 11:15 hours on 8 July 2010; at 12:15 hours on 14 July 2010 and at 11:00 on 19 July 2010.

3.1 (a)

HOUSING FACILITIES, GENERAL.

Sec. 3.1 Housing facilities, general.

(a) Structure; construction. Housing facilities for dogs and cats must be designed and constructed so that they are structurally sound.

The exterior wall of the south kennel, the northeast pen; the bulldogs have severely chewed/torn toe wall covering off. The owner needs to repair/replace the surface portion of the wall. This is necessary to maintain the structural integrity of the facility

This affects 2 dogs

To be corrected by 30 August 2009

3.6 (a)

PRIMARY ENCLOSURES.

Sec. 3.6 Primary enclosures.

(a) General requirements. (1) Primary enclosures must be designed and constructed of suitable materials so that they are structurally sound. The primary enclosures must be kept in good repair.

The shelter and feeder in the north wire pen containing the male doberman has been severely chewed and damaged. The owner needs to repair/replace the shelter and feeder.

This affects 1 dog

To be corrected by 30 August 2009
